### Update Password Obtaining

**Obtain Update Password**

MAIN UNIT NO.

SYSTEM MAKE DATE  Year  Month  Day

APPLIC. MAKE DATE  Year  Month  Day

UPDATE SOFTWARE MAKE DATE  Year  Month  Day

**Not working until you press Submit button.**

Pressing “Submit” will return an INCORRECT password, but will allow the “Day” selection. If you have entered everything so far correctly, Reselect the “Day” option and enter the correct day.

### Update Password Obtaining

MAIN UNIT NO.

SYSTEM MAKE DATE  Year  Month  Day

APPLIC. MAKE DATE  Year  Month  Day

UPDATE SOFTWARE MAKE DATE  Year  Month  Day

**Working now...but the issued password is wrong!**

**Wrong Password**

**Select the correct "Day" and press the "Submit" button again to get the correct password.**

Double check what you have entered/selected in the boxes and Click “Submit” again. The web site will issue the correct password for your unit based on the information you have entered in the boxes. You should Print this file for your records and keep it in the code reader manual book for later reference.

Update Password Obtaining

MAIN UNIT NO:

SYSTEM MAKE DATE: 2010  Year 1  Month 9  Day

APPLIC. MAKE DATE: 2010  Year 10  Month 21  Day

UPDATE SOFTWARE MAKE DATE: 2010  Year 11  Month 4  Day
