VALUE-100 A/C Service Station

Functions

- Recovery
- Vacuum
- Recharging
- Refrigerant Purifying
- Recycling
- Discharging used Oil
- Refilling new oil
- Display the temperature of the tank
- Print (optional)
- Heating (increase recharging rate)
- High-pressure Alarm
- Low-pressure Alarm
- Empty Tank Alarm

Features

- Professional Industrial Design and Perfect Appearance.
- Combined Advanced Technology to Ensure Stable and Reliable Quality.
- Selecting High Standard Components to Ensure Used Unfailingly.
- Failure Rate Near to zero by using integrated module with patented technology.
- Higher Oil Separation Efficiency.
- Long-term After-service Support.
- Graphic Representation of Operating interface is easy for users.
- Simple and Convenient to Maintain

VALUE-100 A/C Service Station is the latest production for refrigerant recovering and recharging , developed based on the advanced technology of VALUE series designed by Ecotechnics S.P.A. VALUE 100, with exquisite and compositive design, nice shape and more durability, will certainly satisfy users all over the world.
