Introducing the NEW OmiCheck Service

The cost effective, easy to use servicing tool that will get you into diagnostics without breaking the bank or blowing your mind.

OmiCheck Service

The OmiCheck Service Tool is a must for any garage carrying out servicing activities that now require diagnostic communication. It is also ideal as an entry level tool or as an addition to your existing diagnostic kit. Fully upgradable to OmiCheck Professional and never switches off! Applications include:

- ABS – Reads and clear ABS faults
- Airbag – Enables a technician to read and clear faults, and also reset airbag and SRS warning lights
- Climate Control - Allows a technician to read and clear faults in climate control systems of a large variety of vehicles
- Electronic Park Brake (EPB) - This application has been designed to release the brake callipers to replace brake pads on selected vehicles with electronic handbrakes and allow you to re-calibrate systems where necessary
- EOBD - Reads EOBD data to clear fault codes, live data, and contains a comprehensive fault code library
- Service Reset - Allows setup and resetting procedure's to be done which then allows any stability control electronics in the vehicle to work correctly.
- Steering Angle Sensors - Reset faults highlighted from the steering angle sensors
- Tyre Pressure Monitoring - A must have for fast fits. This tool is designed to programme the TPMS ECU and register new valves or re-registering valves if wheels have moved into different positions

Introducing the NEW OmiCheck Professional

OmiCheck Professional

OmiCheck Professional takes the easy to use functionality of the Omicheck Service and turns it into a full blown deep dive diagnostic tool, whether you are looking for a tool to do Diesel particulate filter regeneration, look at CAN based problems or just recode injectors, the Omicheck Professional is the one for you.

Omicheck Professional allows you to interrogate numerous systems including:

- Seat Electrics
- Injector Configuration
- Body Control Unit
- Tyres
- Transmission
- Steering
- Park Distance Sensors
- Particulate Filter
- Security
- Instruments
- Climate Control
- Engine Management
- Interconnection
- Suspension
- Key/Remote Program
- Door Modules
- SRS Airbag
- ABS Braking
- Service Light Reset
- Lighting and much more.
